

HIGHLANDS Community District Association

Invites you!

OCTOBER 22, 2019

Community Hall

729 Finlayson Arm Rd.

7.30pm

IAN BRUCE

Ian Douglas Bruce is the Executive Coordinator for Peninsula Streams Society.

He also provides ecological and fisheries services to industry, government and First Nations. Ian is a registered professional biologist and completed a Diploma in Restoration of Natural Systems at UVic in 2003.

Peninsula Streams

The Millstream watershed consists of all the land that drains into Millstream Creek, which subsequently flows into Esquimalt Harbour. A large portion of the watershed is located along the eastern flanks of the Gowlland-Tod Range in the Highlands, and also includes urbanized areas in Langford and Colwood.

The Peninsula Streams Society helps coordinate stream restoration and habitat conservation on the Saanich Peninsula
